We are currently looking to strengthen our **Products & Ventures** team with an ambitious **Front End Developer (m/f/d)**

About Us

The INC Invention Center is a full-service partner for the development and implementation of technology-based innovations and ventures. At our six global locations, our team of experts accompanies a wide variety of projects from the initial idea through validation, evaluation and piloting to implementation in concrete products and services.

More than 450 satisfied customers have already been convinced by our future-oriented methods, consulting, training and implementation services as well as our company building expertise.

Your Tasks

- Development of innovative products and services in close collaboration with product and interface designers
- Use of modern web technologies to build applications for various industry and research projects
- Participation in an agile software development team
- Project management for exciting development topics

Your Profile

- Degree or equivalent qualification in computer science, mathematics or similar field
- Solid experience in JavaScript frameworks like React or AngularJS
- Experience in (web) application frameworks like Next.js, Django or Laravel
- Thorough understanding of essential web technologies
- Analytical-structured way of working and conceptual thinking
- Strong teamwork and communication skills
- Fluent knowledge of English and basic knowledge of German

Our Offer

- Attractive working environment in highly innovative industries
- Exciting tasks with room for your own ideas and taking over responsibility
- International environment with locations in Aachen, Berlin, Dresden, Hong Kong, Istanbul and Munich
- Relaxed working atmosphere with a committed, dynamic team
- Continuing opportunities for further training
- Company pension scheme
- Work-life balance through flexible working hours as well as various support offers to reconcile your private and professional life
